White Paper

INTRODUCING THE DEFItt Coins & fTT ICO BONDS,
TWIN WONDERS OF FINANCIAL FREEDOM

Eiosoft Capital

"COME, INVEST AND PROFIT
WITH PEACE OF MIND"

MISSION OBJECTIVE

To Provide a User Friendly Global Decentralised Financial Investment Environment, Free from Big Brother Surveillance, which Provides Handsome Returns and Yet is Flexible to Adapt to Emerging Technologies to Protect Investor Investment.

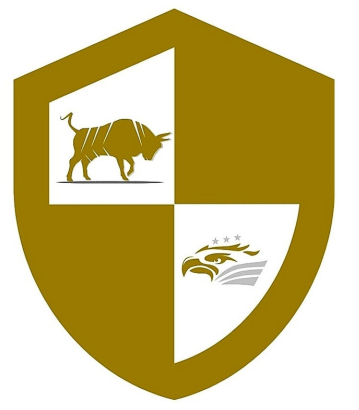

BACKGROUND

The World has Readily Welcomed Crypto Currency as being integral engines to the Driving of the Decentralised Finance Environment. However, with Governments and Big Corporates, Now on the Verge of Launching their Own Crypto Tokens there is the Ever Looming Threat Lurking to Arrest the Independence of the Block Chain as they May Try to Control the Standards to their Own Advantage. It is this Threat of Big Money & Big Influence that Needs to be Countered With a Fierce Commitment to Flexibility and to the Open Independent Block Chain Technology, Both Existing and Emerging. That can Only Be Done When there is a Viable Alternative Available With the Necessary Muscle Power to Withstand their Challenges and Onslaught and Yet is Committed to Protecting the Original Objectives of Satoshi Nakamoto the "Father" of the Bitcoin as like Shubhrawpratap Dasgupta, tthe"Father "of fTT ICO Bonds.

GROUND REALITY:

- 1.The World has changed with the popularity of the Internet and the Mobile Smart phone capable of providing assistance at a moments notice.
- 2.Yet,the poor penetration of the Banking system in large parts of the World particularly in Africa, Asia and Latin America does Not come to the Help of the needy when Most required
- 3.Cumbersome and demanding government and banking processes make it time consuming to get access to Bank loans when Most Needed.
- 4.High Interest Rates and other charges levied by governments and Financial Institutions make Loans prohibitively expensive and nullify the very objective of taking them in the first place.
- 5.Friends and Relatives Cannot provide Financial assistance in return for a modicum of a small interest charge to offset the losses incurred by them for breaking their Fixed Deposits and other saving instruments in order to come to the aid of their close ones,which deters many from helping out.
- 6.Statements from Credit card vendors and Banks, Disclose transactions of a Very Private Nature.
- 7.Prying eyes of the Government observe All transactions that one may make using credit cards and other standard Financial Instruments that one has the right to make with Ones Own Hard Earned Money.
- 8.Stock Exchanges and Interest Rates Fluctuate depending on the Fiscal Health of the Economies of the World.

OPPORTUNITY:

1. Smart phones popularity, along with government and private companies interest in providing connectivity to remote areas, enables a wider audience to participate in Financial transactions as it brings them into the Network.
2. Free from the Prying eyes of Government and Banks and Financial Institutions, enables one to Safely carry out transactions of a Very Private Nature be it purchases or donations to Ones favorite charity or cause dear to Ones heart.
3. Friends and Relatives can Help out Without sacrificing their own self interest and loss in resultant savings which they had provided for themselves for a rainy day.
4. Government cannot keep track of Ones purchases and investments made through Crypto currency, so go on your holidays and indulge in buying and spending to your hearts content.
5. Transactions are Safe and Integrity is assured due to distributed governance which ensures no Single Powerful entity can take Control of the Network and Proof of Stake assures Integrity and trust worthiness. This Network of open access, allows anybody with an internet connection to participate as it provides peace of mind and security through cryptography, that protects the integrity of their funds.

THE EIOSOFT SOLUTION:

1. Provide Open Technology Access With Freedom of Choice Where the Investor makes the Call.
2. Both Decentralised Financial Investment Trade Token – (DEFItt) Coins and Forex Trade Token – (fTT) Coins Provide Investors the Choice to Invest in either Ethereum ERC- 20 Compliant tokens Or BSC - 20 Compliant Tokens or a Combination of Both should they Decide to Invest in them.
3. Both Decentralised Financial Investment Trade Token – DEFItt Coins and Forex Trade Token – fTT Coins can Function in their Native Polygon- Ethereum 2.0 Blockchain Or the Binance BSC Blockchain. In addition we will be providing a Bridge to Connect the Polygon Blockchain to the BSC Blockchain. There will also be provision through Our Crypto exchanges and other exchanges to transact with Bitcoins.
4. A Decentralised Finance Environment will be created initially in Dubai, Ajman and UK and then Rolled out World wide where transactions using these Tokens can be done effortlessly. These would cover Hospitality, Healthcare, Leisure, Education, Real Estate, Financial, Banking (Debit cards & ATM) and Other Verticals which will cover Free Tax Zones.
5. DEFItt Coins Will have a Lock-in period Of 7 Months from date of its International Launch & Public Listing to Ensure the proposed Decentralised Financial Infrastructure enumerated above is in place for transactions to take place, initially in Dubai, Ajman and UK followed with rollout in other locations across the World. Those Investors who Buy DEFItt Coins equivalent to a Minimum amount of US \$ 270000 and above Will Enjoy Discounts ranging from 2% to 16.45% for transactions they do in the Decentralised Financial Environment in Dubai, Ajman and in the UK and later at other locations
6. fTT Coins will have a Lock-in period Of Five Years and later Seven Years. The Percentage of DEFItt Coins Purchased to be Converted into fTT as instructed by the Investor in the ICO
